

# Coral Coast

Whose eggs are these? Can you find them somewhere in the exhibit?

Find the turtle eggs in the exhibit and feel them. Circle the word which best describes how they feel.

Male/Boy  
turtle eggs  
feel:

**Warm Cool**

Female/Girl  
turtle eggs  
feel:

**Warm Cool**

There are four different types of turtles in this exhibit. Can you tick them off as you find each one? Sketch a picture of what their shell looks like and compare them.

Flatback Turtle

Loggerhead Turtle

Loggerhead shell:

Olive Ridley Turtle

Olive Ridley shell:

Look for the two crocodile skulls in the display cabinet. Which skull belongs to the saltwater crocodile and which one belongs to the freshwater crocodile?

There are many other animals that can be found in the oceans around the reef. Draw a picture, or write a story about the animals that you've discovered in the exhibit. Don't forget to include their names!

# Discover Queensland

## Savage Sun

There are many types of animals living in the Queensland Outback! See if you can find all these animals in the Savage Sun display:

Shingle Back Lizard

Death Adder

Red Necked Avocet

## Strangler Fig Tree

It's amazing how so many animals can live in one tree. See if you can find all the different kinds of animals living in the Strangler Fig Tree and match their names to their pictures:

Barred Frog

Sulphur-Crested Cockatoo

Quoll

Green Tree Frog

Carpet Python

Tree Kangaroo

Sooty Owl

Fruit Dove

# Lost Creatures

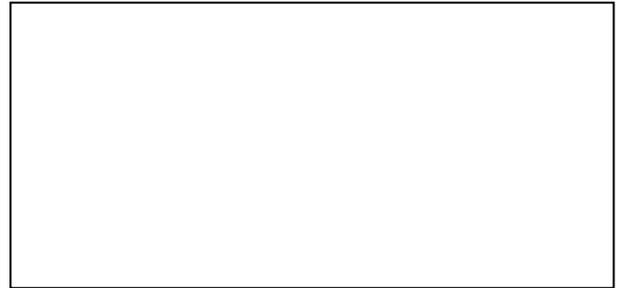

## Scavenger Hunt

These animals all lived in Australia many thousands of years ago. Now, all that is left of them are bones and fossils. Look around the exhibit and tick off the animals you find. Draw a picture of their bones or fossils.

Muttaburrasaurus

Muttaburrasaurus Skeleton

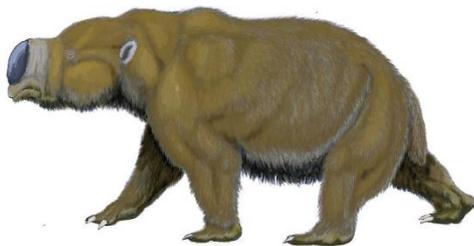

Ammonite

Ammonite Fossil

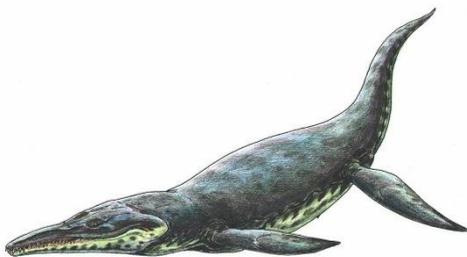

Diprotodon

Diprotodon Skull

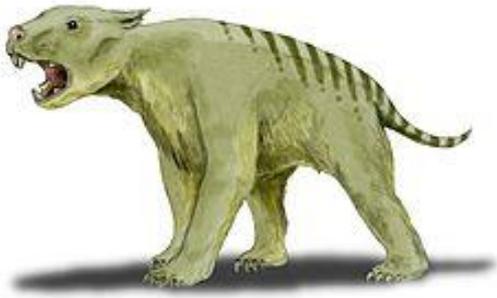

Kronosaurus

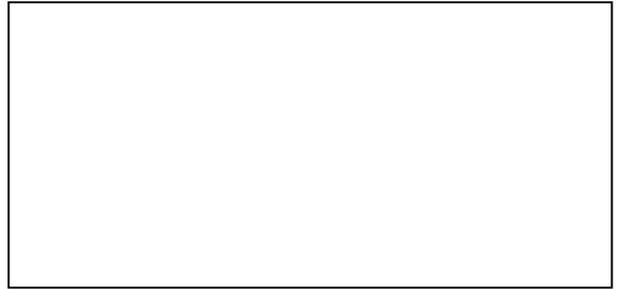

Kronosaurus Jawbone

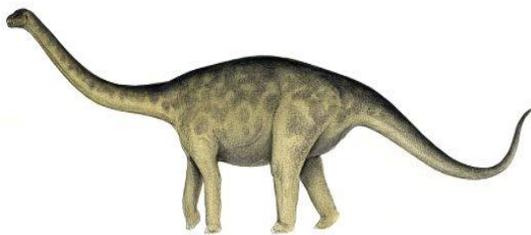

Marsupial Lion

Marsupial Lion Skull

Rhoetosaurus

Rhoetosaurus Leg bone

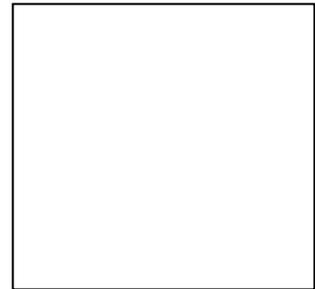

Look for the crocodile teeth exhibit. Draw a picture of the regular and the giant crocodile tooth and compare them. Which one is bigger?

Regular Crocodile Tooth

Giant Crocodile Tooth

Look up at the dinosaur footprints on the wall. What kind of dinosaurs would make those footprints? Draw the dinosaurs you think made those footprints.
