

BEFORE YOU KNOCK...

We are happy with our religion

We have already chosen the charities we wish to support

We don't want to buy anything... we have everything we need.

We are happy with our electricity, gas, and other service providers.

If you are knocking for one of the above reasons, please respect our wishes and don't knock. We don't want to offend, but this is our home & we're a busy family trying to make time for those important to us.

If you're a friend or family member or delivering something we've ordered...
Nice to see you!
